Public Debt & Fund Management & Investment

06th - 10th October 2025

London - UK

The program can be specially customised to meet the personal identified training needs of participants and help them contribute to their organizational goals

Course Overview

The skills of public debt management are very essential for the process of establishing and executing a strategy for managing a governments' debt in order to raise the required amount of funding, achieve its risk and cost objectives, and to meet any other debt management goals that a government may have set, such as developing and maintaining an efficient market for government securities.

This programme provides an overview of public debt management by explaining concepts in a user-friendly language and using clear illustrations and country examples. The objective of the course is to highlight the past experience, current concepts & techniques of public debt management. Besides overall concepts, this course will provide in-depth understanding of debt sustainability issues, an appreciation of public debt management in the budgetary context, explain facets of external and domestic public borrowing, and introduce participants to the meaning and implication of contingent liability and risk management.

Course Aims & Objectives

Upon completion of the course, participants should be able to:

- State in simple terms the meaning of public debt
- Become familiar with key challenges facing government in the area of debt management
- Describe the aspects of domestic and external debt
- Review current market conditions, trends, and practices
- Explain the basic and advanced concepts in public debt management
- Determine the implications of contingent liability and risk management
- Examine the use of the courts and debt management agencies in recovering debt
- Learn how to develop appropriate policies and procedures based on the best practices
- Know the issuers responsibilities before, during, and after bonds are sold

Training Methodology

This dynamic training seminar is highly-interactive and encourages delegate participation through a combination of lectures, group discussion, practical exercise, case studies, and breakout session designed to reinforce new skills. The comprehensive course manual has been designed to be practical, easy to use and facilitate learning. Delegates will gain the skills and motivation they need to create long-lasting change.

Who Will Benefit
